December 15, 2025

Elevator Pitch

Herbalism is a crafting and management simulation game where you play as an alchemist in the Ethshar of the Spices, brewing potions, refining ingredients, and fulfilling customer requests to build your reputation and grow your potion shop.

What Went Well

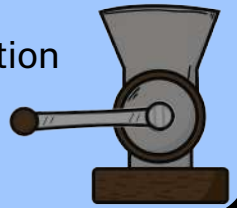
- Communication In Class
- Support Lines
- Organization

What Went Poorly

- Development Team Communication
- Poor Design Decisions Made
- Unpredictable Issue
  - Longer-Term Sickness

What Did We Learn

- Plan For The Unplannable
- Streamline Communication Routes
- Dev<->Dev Communication



Postmortem

Game Future

For Herbalism

The currently is in a state we are happy for considering this class assignment, but this really is more of a MVP and proof of concept than anything else.

How Complete Is It?

- More levels
- A working economy
- Polished tactile functions
- Fleshed out lore
- Reputation system
- Affordance Improvements
  - Trash Can
  - In-World Book Placement

What Would It Need?
